

Remote Paging Microphone

T-319

Description

The remote paging microphone is a high-sensitivity desktop condenser induction microphone that can collect high-definition broadcast voice for broadcasting systems.

Features

- * Built-in capacitor, high sensitivity, high-definition speech.
- * Built-in 2-tone and 4-tone bell generators for selection.
- * With 10-segment LED light output signal indication.
- * Used with T-1S01 and T-2S01.

Specifications

Model	T-319
Output Level/impedance	0dB(unit gain) /600Ω balanced
MIC Input Sensitivity/Impedance	-50dB/600Ω balanced
Frequency Response	50Hz~18KHz (-3dB)
THD	< 0.1%
S/N Ratio	> 65dB
MIC	
Type	Condenser Microphone
Polar Pattern	Unidirectional
Frequency Response	100Hz~16KHz
Impedance	Max 680Ω
Sensitivity	-47dB±3dB
S/N Ratio	> 60dB
General	
Power Supply	DC 24V
Weight	0.96Kg (Without Microphone)
Dimensions	190 x 114 x 41mm

Rear Panel
